NARROW 50 pin Centronix Connector, 10/20 MB/s. Must use narrow receivers and carriers.
WIDE 68 pin HD Connector, 40 MB/s.
Wide receivers are compatible with wide carriers only. Also referred to as Ultra Wide, Fast/Wide.
Ultra160 LVD 68 pin HD Connector, 160 MB/s.
Ultra 160 LVD wide receivers have a built-in repeater supporting Ultra160 speeds, provided you use
Ultra160 drives, carriers, and hostcards. (Receivers and carriers are labeled U3 for Ultra160 compatibility)
Also referred to as Ultra3, U3, or Ultra160.

N O T E: Ultra 160 LVD receivers may accept wide carriers but will degrade the SCSI bus to wide characteristics. (Cable lengths must meet wide requirements.)
